Flyer-Truck FLT 180 e-drive

Opis produktu

Drive system	Electric engine 2 x AC 24V 7.2 kW (HP 9.6) total 14.5 kW (HP 19.2)
	Pulse contact control with 70 parameter
	Synchron and permanent steering
	2 flat gear with roller chain drive
Battery	4 x acid batteries each 12V 260 Ah for approx. 2.5 hour operation time
Battery charger	HF charger 230/24V 30A with charge level indicator incl. adapter cable 230V 1.0m (charging cable)
Brake	drive brake as 2 disk brake, hydraulically oil brake on steering axle parking brake multi-disk spring power brake magnetic 2 x 40 Nm/24V
Speed	step 1: approx. 0 – 5/7 km/h - step 2: approx. 0 – 18/22 km/h forward and backward, speed regulation via feed pedal
Frames	Loading weight: 3200 kg, for aeroplanes approx. 25.0 t MTOW weight empty: 1502 kg / 3311 lbs dimension: (LxWxH) 4.64 x 1.71 x 1.25 m
Drivers plat	Driver’s position with seat and water proofed operation elements Steering column with steering wheel and display, feed pedal for speed and brake,

	drive direction switch, operation elements for landing gear bracket
Steering	Central steering axle with double wheel and spring accumulator Electric mechanic steering with steering column and steering wheel
Landing gear bracket	Electric hydraulic landing gear bracket with powerful belt winch and mechanical safety pin
Tire equipment	Drive wheels: pneumatic-tired 195/50-B10, 18x8.00/10,112,5 8 PR Front axle: 15x4 ½-8 drive wheel, heavy duty, solid rubber
Lighting	Working light H3 front and rear, control lighting, Working light on the landing gear bracket, 2 x LED flash safety lighting
Safety equipment	Emergency stop, signal horn, stop-over safety circuit without driver, LED-safety blinker beacon front and rear, safety reflector straps
