# L1-G: Tactical Aviator Series Flashlight - GREEN LED

## Opis produktu

The FLITELite.com L1 Tactical Aviator Series Light - GREEN LED

The L1 is designed for the tactical aviator that requires a rugged, easy to control light that puts light exactly where you need it. Controlled with a simple on/off end cap, the light delivers CREE Led light through a MOON Lens - an exact spot where desired. The L1 Flashlight is designed to fit in the flight suit thigh pocket, or in the shoulder pocket of the new two piece flight suit (it is too large for some of the older flight suits shoulder pockets). Brightness is fixed with the current L1 model.
